

FAI Helicopter World Cup 2026

12-14.06.2026 Zielona Góra - Babimost Airport, Poland

Main Event / Races 13 June (Saturday) 2026

Bulletin No. 1

FAI Helicopter World Cup 2026 will take place from 12-14.06.2026.

The aim of the HWC is promotion and popularization of helicopter sports, determination of the best crews and teams, and development of international aeronautical relationships.

International teams are invited to take part in the competition. We expect outcomes such as the promotion of helicopter aviation in line with the motto “The Helicopter in the Service of the State” as well as the selection of Winners. Our focus extends beyond sports competition—we also undertake activities that raise awareness of key issues that should be embedded in public consciousness, such as the role of helicopters in national defense, rescue operations, patrol missions, transport, and their functions in saving and protecting health, life, and security.

Furthermore, the initiative aims to preserve helicopter sport traditions and promote aeronautical knowledge and skills within society. It serves as an inspiration for the younger generation—recognizing distinguished aviators and innovative helicopter projects encourages young people to develop an interest in helicopter sport and aviation. The event is held under the patronage of the Polish Ministry of National Defense, the Ministry of Sport and Tourism.

Promotion of helicopter sport and the slogan ‘Helicopter in the service of the State’.

Organization

The Organizer of the event is Polish Helicopter Association “Helisport”
